

TopSolid

Wood

A complete wood CAD/CAM solution with TopSolid'Wood 2009

- Powerful and parametric solid modeller
- Wood-specific functionalities
- Complete CAD/CAM integration
- High level of customisation
- Powerful interfaces
- Generation of commercial and marketing information
- Integrated with CAD/CAM for sheet metal, plastic, metal, ...

THE INTEGRATED
CAD/CAM/ERP SOLUTION

A complete wood CAD/CAM solution with TopSolid'Wood 2009

TopSolid'Wood is an integrated design, manufacturing and management software specialised for wood processing. It is a uniquely integrated CAD/CAM wood solution that meets the needs of designers, manufacturers and subcontractors in the wood working sector.

TopSolid'Wood 2009:

More wood specific functions:

- > Laminate codification and configuration
- > Optimisation of edge covering selection
- > Tool radius for groove and fold functions
- > Predefined positioning constraints for the rapid implementation of components

More efficient machining interfaces:

- > Control of part reversal for machining
- > Export part nestings
- > Association of tool numbers with operations
- > Management of special tools at varying depths

More pertinent use of data:

- > Part selection by properties
- > Automatic differentiation or separation of parts based on morphological analysis
- > Group configuration management and multi-texture creation
- > Automatic multi-level numbering of a project
- > More detailed BOMs and title blocks

New Google Sketchup interface:

- > Importation of SKP files to access numerous 3D components available on the internet

TopSolid'WoodCam 2009:

Increased productivity:

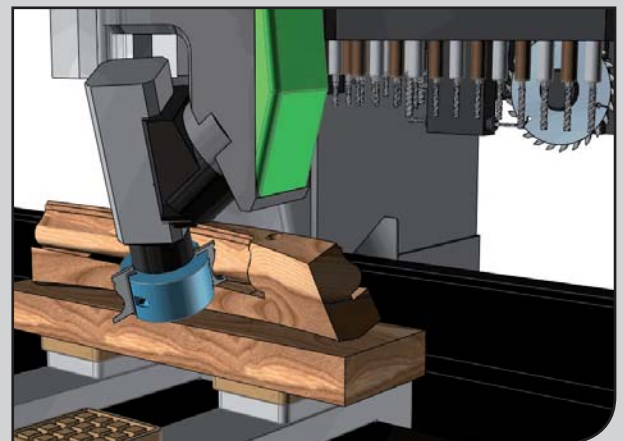

- > Customisable approach and retract milling operations
- > Management of links between the part and its stock
- > Optimise machining of panels
- > Customise machining by associating processes to designs
- > BOM selection for multi-machining

TopSolid'Wood offers tailored solutions for interior design.

TopSolid'Wood 2009 proposes draft creation with enhanced BOM details.

Complex 5 axis machining with TopSolid'WoodCam 2009.
